

ELIMINATING FGM THROUGH EDUCATION 101

FGM deprives girls of their sexual & reproductive health rights. We demand equal & free access to SRHR services for girls.

We need to develop tools, guidelines, training & policies to support efforts to prevent FGM.

"Education gave me a voice. If it wasn't for education I wouldn't be able to be here. Every girl should have that opportunity"

-Natalie Robi, Msichana Empowerment Kuria

#EndFGM

Education is a powerful tool to reduce FGM. It provides girls with more agency about their sexual & reproductive health & rights.

To eliminate FGM, we need to raise more funds to invest in education, training & counseling.
